Theme of PACIS 2020: Information Systems (IS) for the Future

The Pacific Asia Conference on Information Systems (PACIS) is officially affiliated with the Association of Information Systems. It brings together regional and International IS researchers and practitioners to meet in an annual forum for knowledge sharing, research collaboration, and talent acquisition.

The 24th PACIS in 2020 will be in Dubai, United Arab Emirates, a city connecting the East & the West and providing unrivalled access to the world’s emerging economies with its ecosystem for accelerated growth. Having PACIS in Dubai in the same year of Expo2020, we would like to invite international scholars to expand the boundary and impact of IS for future growth opportunities and sustainable development.
